the box tipper

**WP** BAKERYGROUP

## HK 100

### BENEFIT

- Assistance by automatic lifting / lowering and tipping of plastic boxes
- Particularly suitable for doughs with long dough rest
- Process particularly gentle to the dough
- Space saving construction
- Modern safety technology ensures safe handling

### OPTIONS

- Fixed plastic box instead of mounting platform for plastic boxes
- Mounting platform for other plastic box dimensions on request, maximum box width 700 mm (28")

SOFT DOUGHS WITH A LONG DOUGH REST ARE THE TREND, AS THEY STAND FOR TASTY PRODUCTS WITH GOOD SALUBRIOUSNESS. PANE AND PANE PUR DOUGH STRIP LINES ARE SPECIALISTS FOR SOFT DOUGHS WITH LONG DOUGH REST. THE HK 100 LIFTS THESE SOFT DOUGHS IN THEIR DOUGH REST BOXES QUICKLY AND GENTLY AND THUS FACILITATES THE INFEED OF THE PANE AND PANE PUR DOUGH STRIP LINES.

Automatic infeed of PANE and PANE PUR dough strip lines

Connection via the head machine

When entering the safety floor mat the lifting/ lowering movement stops

Automatic filling level monitoring
